A. A. OWNERS WON'T SIGN AGREEMENT

Chicago, Jan. 25.—Club owners of the American association today declined to enter into any draft agreement with the major leagues. The proposal for the restoration of the draft, carrying with it a price of \$1,500 for each player drafted, was unanimously voted down at a special meeting called to consider the subject. The major leagues if they desire to obtain star players from the American association clubs, will have to purchase them outright at whatever price demanded.

The proposal to amend the agreement between the major and minor leagues relating to the draft came from Judge K. M. Landis, commissioner of baseball, who held that restoration of the draft was necessary so that baseball players could advance in their profession.

The club owners declared that they bould obtain a better price for any stars developed by selling them rather than being forced to accept the \$7,500 draft price.

Draft is a Big Problem.

CHICAGO GRAIN MARKET. Chicago, Jan. 25.—Wheat averaged a little lower in price today owing chiefly to a decline at Liverpool and to absence of any signs of export business. The close was unsettled at 5-8 cent net de-cline to 1-4 advance with May 1.15 to 1.15 1-8 and July 1.02. Corn lost a shade to 1-4c, and oats 1-8 to 1-4c. In shade to 1-4c, and oats 1-8 to 1-4c. In provisions the outcome varied from unchanged figures to 35 cents lower.

Moderate upturns in the price of wheat characterized the early trading and appeared to be due for the most part to an opinion from a British authority that pointed to a prospective scarcity of supplies for importing countries. But the Liverpool market closed lower, and export business in wheat from the United States seemed to be temporarily at least Pu States seemed to be temporarily at least Purat a standstill. Besides domestic milling demand was less active. Under such circumstances it proved difficult to stir H. up aggressive buying on the ground of urgency of European requirements, and the market tended to sag in the last part of the day, disturbed only by the operations of spreadown ions of spreaders whose maneuveres led to a narrowing of one cent in the differ-ence between the July delivery and the May as compared with yesterday's
